

Threeways Rock Climbing Mini Guide

Josh Thewell on FA of The Squirm (20)

Threeways is a new mixed climbing area less than an hour from Perth, in the direction of York (GPS: S32 01.122 E116 30.691). There is a mix of fully bolted, fully natural and mixed routes, with all bolts being P-bolts. There are double P-bolt anchors on top of each boulder for belaying.

The rock is granite, with 3 separate boulders, up to 10m high. Currently (Apr 2012) there are 12 completed routes, ranging from grade 15 – 21, with a further 10 projects already bolted.

DIRECTIONS:

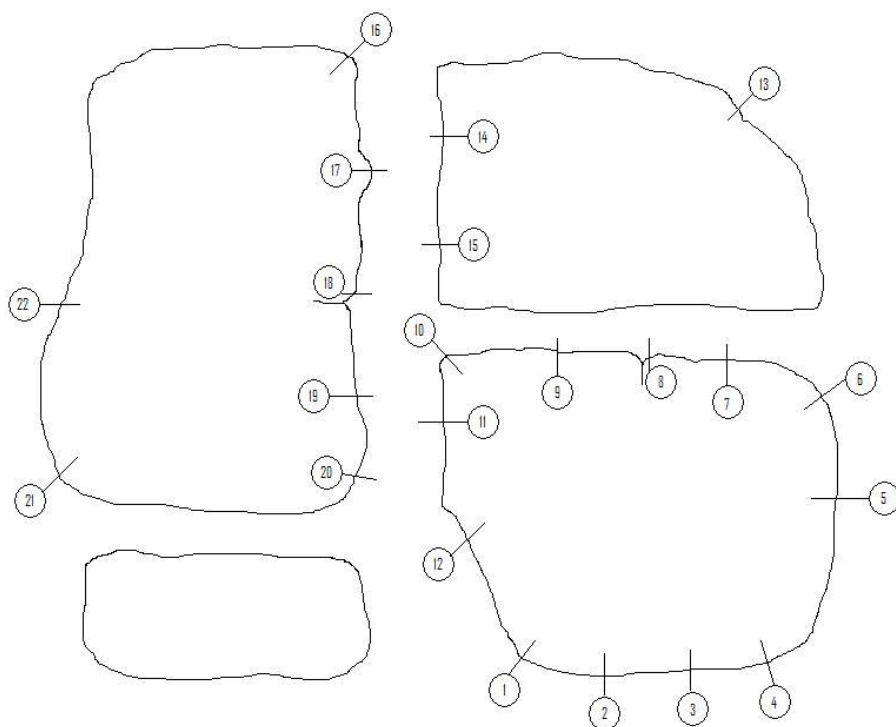

Head out of Perth on Great Eastern Hwy, then turn right at The Lakes roadhouse onto Great Southern Hwy. Turn right onto Yarra Rd, then left onto West Talbot Rd. After 9.5kms turn right onto Kent St (@ S31 57.688 E116 30.867). After 3.5kms turn right onto Deefor Rd (@ S31 59.381 E116 31.264). After 3.2kms turn left onto Nuytsia Rd (@S32 00.506 E116 30.034).

Drive 1.7kms along Nuytsia Rd and turn left into a small track which leads to the parking area about 200m into the bush in a small clearing.

The crag is 2WD accessible, although 4WD is preferred as there are some rutted and sandy sections, and trees are frequently down across various roads.

ROUTES:
